

To Whom It May Concern:

I am a realtor in Naples, Florida and I work as an independent agent. That means that I have to do all my own advertising and my own ads. Vincent Andella has been a life saver for me, I don't know what I would have done with out him. He has provided me with reliable, professional service and he is so creative that my ads really stand out. When it comes to marketing, he's a genius.

He has helped me with all of my computer, graphics, and advertising needs. The innovative templates that he made for me to display my listings are fantastic. Also, he created a DVD of one of my high end properties so that buyers could see the residence, the amenities and the entire community from their own living room TV. When I needed to send the DVD to Europe, Vincent even transferred it to the European viewing system, PAL. When it comes to technology, he thinks of everything!

Working with Vincent has been enjoyable because he is easy going and doesn't make me feel stupid when I don't know how something works. I tell him what I need, he says, "sure not a problem," and it gets done. It's that simple. I highly recommend him for your marketing, computer, graphics and advertising projects. He's the best!

Sincerely,

Callie Kitis
